november 2022 - november 2022 (1 month)

Puerto Vallarta, Jalisco, México

I was part of the production team for the assembly of various videos for an apartment tower opening project in Puerto Vallarta. I helped as staff moving people around, helping and carrying cables, organizing, also as grip helping the gaffer with the light setting and management. And also as an editor assistance for the first rough cuts.

Nuestra Historia | Shortfilm

Video editor

august 2021 - december 2021 (5 months)

Zapopan, Jalisco, México

One of my very first film/audiovisual projects with an allocated and own budget for a large production. It was a short film in which I was editing director and led the organization and execution of the assembly and certain visual effects. This project demanded a lot from me as an editor in general since it was intended to resemble a single shot throughout the whole shortfilm, so it exploded all my creativity and skills to make it happen.

It was screened at the Guillermo del Toro film room in Guadalajara at the movie theater during a red carpet event along two other short films.
